Welcome To Caring Pediatric Partners!

Here are a few items that we need to make sure that your child's visit is completed smoothly. Your child must be accompanied by either a parent or legal guardian for this initial visit. If they are not, we will have to re-schedule the appointment.

1. Please complete the attached New Patient Health History forms and bring them to the office for your first office visit.
2. Bring along all of your current insurance cards so that we may make a copy of them for your child's chart.
3. Please contact your previous physician and bring along a copy of your child's previous medical records along with a current immunization record, if you have not already sent them to us.
4. Bring a current medication list or the actual medications in their original containers.
5. Please arrive **30 minutes** before your scheduled appointment so that we may update your data in our information systems.

It is very important that you verify with your insurance company the type of office visit and immunization coverage that your insurance policy provides. Your policy may have a deductible, co-pay or only cover immunizations up to a certain age. It is very important to determine this information prior to your appointment.

The office requests 24 hour notification for all appointment cancellations.

Child's Name: _____

Physician: _____

Appointment Date: _____ **Appointment Time:** _____
